To all SNGMS Members:

PRESIDENT'S MESSAGE JUNE 2022

Hello, fellow rockhounds!

We had our annual rock show and sale at the Boulder City Spring Jamboree last month. It was a great time for everyone! Our club did very well! Thanks to all our members who volunteered and worked hard to make the show one of the best shows we have had!

Last month's field trip to Stoddard Wells, CA was successful. Club members who joined were able to go to a property and buy rocks for \$1 per pound. There was a variety of rocks that were available for sale like rose quartz, obsidian, agate, jasper, etc. After "collecting" rocks, some members proceeded to Peggy Sue's Diner for lunch and went rock hounding in the area.

Our general meeting this month was well attended with about 100 members in attendance. We had a wonderful guest speaker, author Jeanne Sharp Howerton, who discussed her book Skidoo. Her book is about a mail-order bride in a 1900's mining community in Nevada.

The cabochon contest with the theme of Milky Way was won by Romy Holtz, first place, and Dale Bright, second place.

Let me thank you, our dear club members! I appreciate all our awesome members who make this the best club in Las Vegas.

Lloyd Chayette, President SNGMS

Our Highway Electronic Signs

Birthstones for the Month of June are Pearl, Moonstone and Alexandrite:

Pearl is a hard glistening object produced within the soft tissue of a living shelled mollusk or another animal. It actually belongs to the marine animal kingdom. but most people consider them precious stones. A pearl is composed of calcium carbonate (CaCO_3) in minute crystalline form, which has been deposited in concentric layers. A pearl necklace is believed to warn sensitive people of imminent danger.

Moonstone is a sodium potassium aluminum silicate with the chemical formula $(\text{Na,K})\text{AlSi}_3\text{O}_8$ and belongs to the feldspar group. Moonstone has been used in jewelry for millennia, including ancient civilizations. The Romans admired moonstone, as they believed it was born from solidified rays of the Moon. It has always been the stone of love and lovers.

Alexandrite belong to the chrysoberyl family (BeAl_2O_4) with a hardness of 8.5 on the Mohs scale. The three main varieties of chrysoberyl are: ordinary yellow-to-green chrysoberyl, cat's eye and alexandrite. Alexandrite will show emerald green, red and orange-yellow colors depending on viewing direction in partially polarized light. It promotes inner harmony, joy and cheerfulness for the wearer.

KIDS CLUB / EDUCATION ACTIVITIES**ARE YOU SMARTER THAN A ROCK STAR!!!**

On Sunday we had about 15 rock stars who spent the meeting learning how to pan for gold. One of the members of the SNGMS has offered to sponsor a trip for the club. There was a discussion as to where we might go – although nothing has been decided yet.

Thank you to the members of the SNGMS club for your continued support and help at this meeting.

Brad's Shop Talk:

DEBURRING A HOLE

When you drill a hole, there's always a burr produced on the underside of the metal. We all have our ways of removing them - typically by filing or sanding the area smooth. But doing it this way will put scratches on your piece that will have to be polished off.

A quick way to remove the burr is to grab a drill that's two or three times larger than your hole. Simply twist it in the hole to cut off the burr. I usually do this twisting by hand, but if you have many holes to do, it's easier on your fingers to put the drill into a holder like a pin vice.

CLEANING STEEL SHOT

Steel shot in a vibratory or rotary tumbler works great to burnish and shine your finished silver pieces. But a common problem is how keep the shot clean. Carbon steel shot can get rusty if exposed to the air, and even stainless steel shot can sometimes develop a blackish coating that's hard to remove.

My solution of choice to clean the shot is Classic Coke. Just pour an ounce or two over the shot and let the tumbler run for an hour or so. A bad case might require a second cleaning. Some folks like to let the bubbles in the Coke dissipate before using it so that gas pressure doesn't build up in the tumbler barrel. I've heard that it's the phosphoric acid in Coke that does the trick.

While you're waiting for the shot to clean , just settle back and enjoy the rest of the Coke.

Such a sad month.

May 2022 Sunshine

Frank Timbers and his wife have COVID-19. We pray they have a speedy recovery.

Carol McCaw, Amber Palecek's mother, is having heart problems. She says she is doing well.

Sheyla McCaw, Amber's daughter, had an emergency C-Section but they were not able to save the baby. We are so very sorry for your loss.

Romy Umholtz had COVID-19 and is doing well after a negative test!

JoAnn Sprott's daughter, Gloria, died suddenly with bone cancer.

Alan Stanton had his hip replaced, and he outran me to get into the meeting!

Lynn Manthey passed away a couple weeks ago.

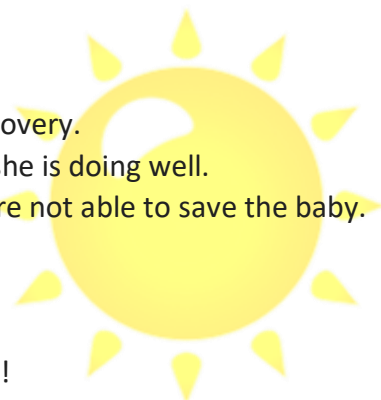

Linda Martin just returned home from the hospital after a surgery. She's doing well.

John Stackhouse has been having trouble with his hip replacement which caused a bunch of problems.

Michael Kirk is going to get a new shoulder! They are repairing it, not a replacement.

Peggy Sue Moore had Covid-19 but will be at the show wearing a mask.

Nicholas Barnes has been in hospital for approximately 6 weeks. He had COVID-19 which caused his Cystic Fibrosis to flare up.
